Forecast for Saturday 29 May 2021

Weather: It will be a cloudy start, with low cloud on the summits, perhaps giving some patchy drizzle at time. However, the cloud will begin to thin and break to give some bright or occasional sunny spells during the afternoon. Feeling warm in the sunshine, with light winds. A small chance of the odd light shower during the afternoon, but generally staying dry.

Chance of cloud free mountain/hill tops above 600m: 30% chance during the morning, but rising to 70% chance during the afternoon.

Visibility: Generally good, with cloud bases between 800 to 1000m, and occasional dropping to 400m early morning, giving poorer visibility over summits, cloud generally lifting during the morning leaving summits largely cloud free.

Meteorologist's View

UV levels will be moderate to high during the weekend, therefore extra protection (sun screen) will be needed for spending any length of time on the hills and walking through the valleys.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Thu 27 May 2021	0.2mm	1.2mm	1.4mm

Forecast for Sunday 30 May 2021

Weather: Overnight will be dry with clear spells. Sunday will stay fine and dry, with plenty of sunshine. A pleasant end to the day, with another clear night ahead.

Maximum wind: Easterly 8-10mph.

Chance of cloud free mountain/hill tops above 600m: 100% chance throughout.

Visibility: Very good with distant hills clearly visible from the summits.

Temperature: **Valleys:** PS08 Celsius, becoming PS19 Celsius.
At 600m: PS08 Celsius, becoming PS13 Celsius.
Freezing level: Above the summits.
